

IT Network Administrator (w/m/d)

To strengthen our IT department, we are looking to hire a dedicated and reliable professional at the earliest possible date as a IT Network Administrator (w/m/d).

Your Responsibilities:

- Implementation, commissioning, and administration of the entire network infrastructure (LAN, WAN, WLAN, VPN, and security solutions)
- Responsibility for implementing and continuously improving IT security standards, particularly in the areas of network and device segmentation
- Maintenance and updating of technical documentation for the IT infrastructure
- Setup, monitoring, and maintenance of firewall systems
- Participation in the integration of new solutions into the existing IT system landscape
- Independent work in a project-oriented environment
- Willingness to participate in a rotating on-call duty within the team

Your Profile:

- Completed degree or vocational training in Computer Science or a related field
- Several years of professional experience in a comparable position
- In-depth knowledge of planning, implementing, and operating complex network infrastructures, including routing and switching (IPv4/IPv6)
- Strong expertise in network and security architectures (firewalls, VPN, IDS/IPS, NAC)

- Confident in analyzing network protocols and experienced in working with scripting languages
- Very good written and spoken German and English skills
- High level of resilience, as well as a team-oriented, structured, and self-driven working style

Your profile

- Union salary and benefits
- 30 days vacation
- Respectful and appreciative collaboration
- Crisis-proof sector: medical technology and pharmaceutical industry
- Meaningful work: for people's health
- Secure financial structure through sustainable management
- Comprehensive induction plans with mentor
- Company doctor/ company social counseling
- Company celebrations
- Free water and coffee. Weekly fruit and vegetable day
- Job bike
- Conveniently located
